# Thiago Innani

Computer Vision & Generative AI Researcher da empresa Universidade Tecnológica Federal do Paraná - Utfpr
Ponta Grossa, Paraná, Brasil

## Resumo

Software Engineer with a background in both academic research and practical full-stack development. Currently pursuing a Master's degree in Computer Science/Applied Computing at UTFPR, with a strong focus on computer vision, remote sensing, and generative diffusion models.My current research involves developing frameworks for generative data augmentation using Controllable Diffusion Models and Semantic Segmentation (PyTorch, YOLO, Stable Diffusion). Alongside my academic path, I have extensive hands-on experience building responsive, mobile-first web applications and scalable solutions using React, Node.js, Tailwind CSS, and Supabase. Passionate about solving complex problems through AI and delivering high-quality, intuitive software.

## Experiência

### Universidade Tecnológica Federal do Paraná - Utfpr

Computer Vision & Generative AI Researcher
março de 2024 - Present (2 anos 9 meses)
Ponta Grossa, Paraná, Brasil

Developing the Seg2Sat-P framework for generative data augmentation using ControlNet and Stable Diffusion 2.1 to enhance semantic segmentation of aerial imagery.
Working extensively with architectures like YOLOv8, YOLOv11, U-Net, DeepLabv3, and SegFormer using PyTorch.
Published and presented research on synthetic aerial image generation at VISAPP 2026.

### Justus Informática Ltda. Me

IT Support & Software Developer
agosto de 2023 - janeiro de 2025 (1 ano 6 meses)
Ponta Grossa, Paraná, Brasil

Developed and maintained a specialized financial application for CFOP (Código Fiscal de Operações e Prestações) consultation, streamlining tax and administrative workflows for clients.
Designed, built, and deployed customized, responsive websites tailored to meet the specific needs of local businesses.
Provided comprehensive technical support, including hardware maintenance, PC troubleshooting, and IT infrastructure solutions to ensure optimal system performance.

### PLSS Soluções
Tier 1 IT Support Technician
junho de 2021 - março de 2023 (1 ano 10 meses)
Ponta Grossa, Paraná, Brasil

Provided comprehensive Tier 1 technical support and troubleshooting for a diverse portfolio of clients, including municipal government offices (city halls).
Acted as a dedicated outsourced IT specialist at Construtora Prestes, managing their day-to-day technical infrastructure and providing hands-on user support.
Ensured smooth daily IT operations by quickly resolving hardware, software, and network issues in fast-paced corporate environments.

### Pixie - Empresa Júnior de Engenharia de Software UEPG
Engenheiro de software
agosto de 2020 - junho de 2022 (1 ano 11 meses)
Ponta Grossa, Paraná, Brasil

Collaborated in a student-led software engineering junior enterprise, operating in a corporate-like environment during weekends to develop practical skills and build a professional portfolio.
Participated in intensive programming training programs and hands-on workshops to bridge the gap between academic theory and industry demands.
Initiated foundational work with React, developing front-end skills and applying them to collaborative team projects.

---

## Formação acadêmica

### Universidade Estadual de Ponta Grossa
Bacharelado em Engenharia de Software, Engenharia de Software · (2019 - 2023)

### Universidade Tecnológica Federal do Paraná (UTFPR)

Master's Degree in Computer Science / Applied Computing (In Progress)., Computer Science · (março de 2024 - novembro de 2026)
